JUNE 26, 1913

ful Convention is one which should receive the support of all women who really have the good of the city at heart. It is as essential that our streets shall be kept free from litter as it is that women shall spend more or less exciting moments in the police courts.

"We draw attention to this fact because we believe that if as much energy were devoted to the work of beautifying and cleaning up the city as is expended in other directions, San Francisco would be the cleanest and most attractive city in the United States. And we hope that this mention of the subject will result in some determined effort to assist the City Beautiful Convention in its work, which is so vital to the welfare of every man, woman and child within the limits of the city."

THE ALLIES QUARRELLING

Two weeks ago at a conference of the Powers in London, the Balkan Allies and Turkey signed a notable treaty of peace. By this treaty, Turkey lost practically all her European territory, escaping with Constantinople and a thin strip along the shores of what was formerly a mighty empire.

Now the Allies are quarrelling loudly among themselves and yesterday's dispatches brought the news that Bulgaria had attacked Serbia in Macedonia. It is evident that the victors cannot agree as to the division of the spoils, and that the peace of all Europe is practically as much endangered now as when the Allies first launched their attack at the Ottoman.

During the progress of the recent peace negotiations, it was freely charged that Bulgaria wished to hurry the signatories that she might feel free to withdraw her forces from their siege of Tchatalja and Constantinople, to mobilize them further west against invasion of the territory she claims from others of the Allies, notably Greece and Serbia. It seems now that the Bulgarian attack in Macedonia had been carefully planned.

Bulgaria, claim the other Allies, is asking for more than her share of the conquered territory. Bulgaria answers this with the statement that not only did she put by far the largest army in the field, but that her losses in the battles almost equaled those of Montenegro, Serbia and Greece combined.

The situation is a tense one. The European chess-board has been violently tilted and international politics are badly mixed. It is not likely, however, that Bulgaria and Serbia will be allowed to continue their war. The Powers are ready to take a hand in the distribution of the territory unless the Allies can settle that point peaceably among themselves.

Champ Clark is authority for the statement that congress will not adjourn until October. No one in Hawaii will worry provided it fails to remove the tariff from sugar.

California's anti-alien law has set an example to the effete east. Philadelphia has adopted a rule that none but naturalized or native-born Americans can be employed to clean the streets.

For the lady readers: The Nashville (Tennessee) Democrat says that being too clever at the wrong time has created many a confirmed spinster.

Huerta is said to be facing a serious situation. Most of the Mexicans seem to turn the other way when they see trouble coming.

The American bankers who loaned Huerta \$100,000,000 may soon be shouting for currency reform.

Save up a little enthusiasm for the Fourth of July. A display of it at that time is entirely in order.

Most of those who do business will naturally prefer to follow Mr. Weaver's opinion.

When the birdmen begin to aviate let's hope they will make no air-ros.

And still the Democratic candidates come trickling home.

Secretary Bryan hasn't been heard from for a week.

McNab apparently has nabbed 'em.

San-up Day seems to be getting chronic.

PERSONAL MENTION

H. M. HEPBURN, formerly manager of the Hawaiian electric company will leave for the mainland on the Mongolia or Sierra. He will remain in California for some time, he plans.

MRS. C. B. COOPER, accompanied by her three children, will leave for the volcano Saturday. A month will be spent in Hilo, Dr. Cooper anticipating a trip to the Big Island for a week or so before the return of his family.

SAMUEL ROSENHEIM, San Francisco attorney, is spending a few weeks in Honolulu, combining business with pleasure. He is accompanied by Mrs. Rosenheim, the latter acting as chaperone to a party of coast girls. The party is stopping at the Pleasanton.

MORE TARGET WORK FOR THE SECOND FOOT

(Continued from page one)

will go into the field on July 1 to be absent on that duty for at least two weeks. This battalion will not undertake its field work and explorations as a whole, but will be split up in four groups, each of a company. The section of terrain to be worked over is the old familiar Koolah mountain range, but nearer to Shafter than the part formerly worked over by the Second when Schofield Barracks was the regiment's home station.

Major Williams' companies will take their recruit members along and those new soldiers will pick up many a wrinkle of the soldier's trade while on the forthcoming hike and will doubtless get their fill of scenery before seeing Shafter's comfortable barracks again.

Regimental Sergeant Major Peter Convery, 2d infantry, recently promoted to that grade from color sergeant, having completed over thirty years' service in the army, has applied for retirement and expects favorable action on his application at an early date. Sergeant Major Convery is a soldier of exceptional worth and well deserving of the privilege sought. The final act in his long and faithful service will be the delivery to him of the war department's order in his case and this will undoubtedly be made a special and formal occasion by the regimental commander as is the custom in the service and done to mark in a notable way the passing of a tried soldier from the active to the retired list. These ceremonies are always impressive, and especially so on the younger men in the ranks. Sergeant Convery's future is well assured by the provision of law whereby he will receive a monthly sum as retired pay amounting to three-fourths of his present pay with an additional sum in lieu of allowances for clothing, rations, quarters, fuel and light. The total retired pay per month for a soldier of his grade and service amounts to \$67.50, a fairly generous provision by the government for this class of faithful servants.

A small fire on the 19th instant in the camp of E company destroyed one tent and a number of articles of personal equipment issued to the occupants as well as some clothing. Investigation showed that the fire was caused by one of the men leaving a candle burning when he left for the target range. The damage to the government property will be assessed to the four men assigned to the tent and will make a noticeable charge against their names on their company payrolls.

Announcement has been made that the Second is to receive one-half of the 75 recruits now en route to Honolulu by the transport Thomas and to arrive on the 27th. This increase in the enlisted strength will bring the companies up to an average of 165 men to the organization and make the regiment a strength of about 1350 officers and men.

TERPSICHOOREAN ART WILL BE TAUGHT TO QUAKER CITY COPS

(By Latest Mail)

PHILADELPHIA — Dancing, target shooting, physical culture, medicine, civics and law are to be taught the Quaker City police. There will be brief practical courses in each at the police station at Tenth and Taylor streets, which has been refitted as a school room.

The dances are planned to make the bluecoats lithe and supple; target shots and the like will be barred. The physical culture course is to include swimming, wrestling and boxing. The medical instruction will be limited to "first aid to the injured."

In law there will be such questions as are of practical importance to every policeman. He is to be taught the rights of the citizens and just how far he may proceed without violating

LITTLE INTERVIEWS

S. T. STARRETT—Broiler chickens are now fetching forty-five cents a pound wholesale and people all over the islands are beginning to raise them.

GOVERNOR FREAR—I have begun the preliminary work on my annual report to the secretary of the interior. I wonder who my successor will be?

TOM MERLE—Say, if all the tourist people come back here to live that threaten to it's about time we were hunting up some new island to accommodate the crowd.

C. C. BITTING—Mr. Breckons has kindly consented to let me stay at home during the Hilo session of the federal court. A number of affairs here probably will require my attention.

JUDGE H. E. COOPER—The Luka will sail for Palmyra Island July 2 or 3, to be gone probably two months. We expect to spend most of our time right on the island. It only takes five or six days to cover the route each way, for the Luka is prepared to travel fast.

A. L. C. ATKINSON—During the last legislature I took a vacation from care and hardly glanced at the laws that were passed. Now I find that the fishing industry in this territory, in which a lot of us are interested in seeing prosper, is hit by one of those laws. Next time I'll keep closer watch.

SAMUEL ROSENHEIM, San Francisco attorney—This is the first visit Mrs. Rosenheim and myself have ever made to Honolulu, but you can rest assured it will not be the last. Far from it. We are entranced with the city and are contemplating purchasing a home here in order that we may spend a few weeks each winter in this delightful climate.

MME. NORDICA—Yes, I have fifteen trunks of gowns with me for my tour of Australia and the Orient and I shall wear some of them in the concerts to be given here this evening and on Saturday evening. I mix patriotism and apparel together, for my gowns, so far as my ability goes to select, are the latest and best, and I am proud to say are all made by American designers.

STARRETT WILL OPEN MARKETING BUSINESS HERE

The produce-marketing business, built up to a considerable volume by the territory during the past two years, will not be abolished on July 3, when the territorial marketing division goes out of existence by decree of the legislature.

The business is to be continued, but not as a public function. Marketing Superintendent S. T. Starrett has announced that he will at once open a private commission business under the firm name of S. T. Starrett & Co. and will go right along handling list and products.

Mr. Starrett came down here for the territorial board of immigration, under which the division of marketing was placed by the legislature of 1911, and has been in charge of the division for two years. He has built up for the territory a large number of farmer-patrons, and recently he sent out to them announcements of his plan to enter the commission business.

The last legislature abolished the division and wiped out Starrett's job. The work was turned over to the special agent of the federal agricultural department, Dr. E. V. Wilcox, but Dr. Wilcox does not plan to continue the public commission business.

"There is a good opening for a private firm that will encourage small farming," said Starrett this morning. "I am going to charge practically the same commission as the marketing division charges, five per cent and in cases ten per cent on commodities that require special work. Vegetables and other farm products are coming in all the time in greater and greater volume and it requires some one here to handle the selling end. Dr. Wilcox's plan of interlocking associations is a good one, but I believe that to make it effective, the services of a selling agent right here in Honolulu will be necessary."

The Turkish Grand Vizier and Minister of War Mahmud Scheffer Pasha, was shot and killed by assassins while driving through the streets of Constantinople in a motor car. Lieutenant Ibrahim Bey, his aid-de-camp, was also killed. Prince Halim has been appointed grand vizier ad interim.

those rights. He will be told how to secure evidence that will hold good in a court of law, and he will be informed on the state and federal laws as well as the municipal ordinances.

Wrist Watches

Obviating the possibility of loss, and combining perfect safety with elegance and beauty.

WICHMAN & CO

Some wrist watches in platinum, set with diamonds; others in a combination of gold and platinum. Many wrist watches in gold, attached to an extension bracelet. Very beautiful in size and design.

These wrist watches, especially in the ornamental yet very serviceable designs, make very acceptable presents for those who will spend the Summer "in the open".

Also wrist straps to fit ordinary sizes in ladies' watches.

Wallace F. Johnson of Philadelphia has sailed for England as one of the four American tennis players to enter the All-England championship tournament. He was formerly intercollegiate tennis champion.

There is much excitement here among the attorneys because of Johnson's name was omitted the list of prominent barristers invited to participate in the dedication of the new courthouse.

"BE PREPARED"

THE BOY SCOUTS' MOTTO PUT TO SHAME THE MAN WHO DOESN'T INSURE HIMSELF AGAINST LOSS BY FIRE.

The boy Scouts are taught to "be prepared" against many emergencies—every family man realizes that fire is one of the principal emergencies he must guard against.

You can't reasonably expect a fire at a certain time, but you can guard against loss by it if it does come.
